## 4. Qualitative Information

### (1) Results of Operations

During the six months ended September 30, 2018, Japan's economy has continued its moderate recovery trend, with improvements in the employment situation and corporate profits, though the economic outlook remains uncertain due to sluggish business activities affected by heavy rain and earthquake disaster, pressure on corporate profits caused by higher raw material & fuel prices and trade issues on global economy.

Under the circumstances, Osaka Soda Group has been shifting to profit oriented management, in line with the three basic policies "Creating new growth engines", "Establishing a profitable global business", and "Completing business structural reforms" set forth in the mid-term management plan "BRIGHT - 2020".

### Basic Chemical Products

The business achieved sales price revision in response to rising cost of raw materials and fuels. Cost down has been ongoing like that the improved electrolyzer, which is developed in-house, was introduced.

### Functional Chemical Products

The market share of major products, such as *Synthetic Rubber*, *Synthetic Resin*, and *Allyl Ethers*, continued to expand for establishing a profitable global business. In addition, new growth engines were creating thanks to business expansion of Column Instruments, entry into the field of High Pharmacological Active Pharmaceutical, Acrylic Rubber launched in 2017, and "Radper" which is non phthalate type allyl resin, launched in April 2018. New Business Promotion Division has established to accelerate the launch of new products by integrating the function such as research of new themes, planning, management, scale-up, and market development in July 2018. Also, we have started to work on the improvement of productivity through introduction of Internet of Things and Artificial Intelligence as business structural reforms.
